

iChlor™ SALT CHLORINATOR

GET THE PERFECT WATER WITHOUT HANDLING CHLORINE

iChlor™ Salt Chlorine Generator uses common table salt to produce all the chlorine a pool needs, safely, effectively and automatically. Same sanitation performance as manual chlorine addition without the drawbacks. No need for customers to buy, transport and store chlorine compounds.

- Compact design, fits most small technical rooms.
- Controls are simple and protected by a cover.
- To use for above ground and small inground pools up to 90 m³.
- Removable cell.
- Data storage prevents consumer mis-information.
- Polarity switching makes it selfcleaning and suitable for high calcium areas.
- 6.000 hour blade life.
- Flow switch controlled.
- Vertically or horizontally mounting.
- Upgradeable.

ADDITIONAL FEATURES INCLUDE:

- Easy-to-view displays for fast checking of salt levels, cell cleanliness, sanitizer output and water flow.
- Adjustment is as easy as pressing two buttons.
- All performance data is captured daily, making it easy to maintain perfect water.
- Cell use tracking feature communicates remaining hours of cell life.
- Integrated sensors to ensure adequate water flow for safer chlorine generation.
- 2-year limited warranty.

iCHLOR™ SALT CHLORINATOR

LED salt level indicators

Two -color status displays

Fine sanitizer output levels
with two-button control

All controls and displays
built directly into the cell

A NEW STANDARD IN CHLORINE GENERATOR TECHNOLOGY

To understand why the **iChlor™** generator is better, it helps to first understand how it works. Table salt (sodium chloride) is added to the pool water...one tablespoon of salt per 10 liters of pool water is all that's required. As the dissolved salt flows through the generator cell, it is electrolytically converted to pure chlorine, which is then distributed throughout the pool, sanitizing the water, keeping it fresh, clear and safer for swimmers. Unlike conventional chlorine additives that must be constantly replenished, the salt is recycled continuously, day after day, to further reduce pool maintenance requirements. The generator even keeps itself clean with an automatic reverse cycling feature that prevents scale build-up for longer cell life.

| MODEL iCHLOR | FOR POOLS UP TO | CHLORINE PRODUCTION EVERY 24 HOURS |
|-----------------|--------------------|--|
| H-52-0800 | 90 m ³ | Up to 500 gr. |

An Eco Select® Brand Product

The iChlor™ has earned the Eco Select brand distinction as one of greenest and most efficient equipment choices from Pentair.
