

CLEAN & CLEAR PLUS

Cartridge filters

Crystal clear water the easy way

This filter will keep your pool sparkling day in day out.

The **Clean & Clear** and **Clean & Clear Plus** cartridge filter are combining top-end filter performance with low maintenance. This dependable design uses special filter elements to strip tiny particles from your pool water... particles as small as 20 microns (an average grain of beach sand is 1,000 microns). And cleaning is a breeze. Open the top, remove the cartridges, hose them off and the filter is ready to go again. We've also maximized the cartridge surface consistency to block and trap the maximum amount of solids, plus we use the most durable materials to extend cartridge life.

- + Corrosion resistant fiberglass-reinforced polypropylene tank with superior strength and reliability
- + Single-piece base and body for strength, stability and years of dependable service
- + Large drain for quick servicing and bulkhead fittings for easy installation

CARTRIDGE CONVENIENCE

Clean & Clear features an easily-cleaned single cartridge for the ultimate carefree pool filtration. The fiberglass-reinforced tank halves are secured with a lock ring with spring-loaded safety latches.

Clean & Clear Plus features a four-cartridge design that provides maximum filter surface area to capture more dirt and extends time between cleaning. The fiberglass-reinforced tank halves are secured with an innovative clamp ring – just loosen the ring and remove the top half for safe and easy cartridge access and rinsing.

Technical features

MODEL	DESCRIPTION	Filter Diameter (mm)	Flow Rate (m ³ /h)	Filter Area (m ²)
