

Automation

# AUTOMATION E-BOX

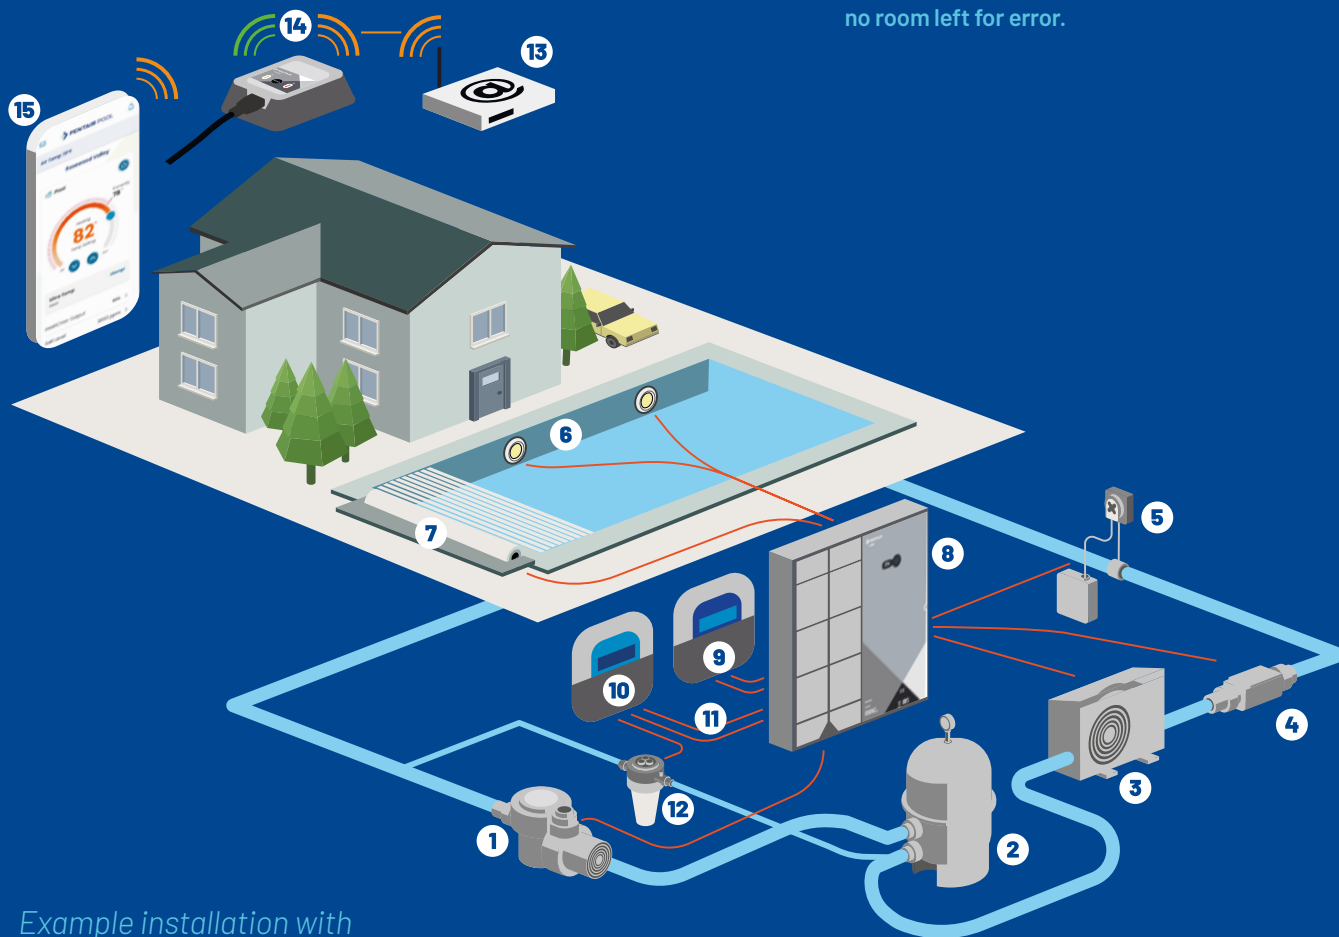

THE ULTIMATE SOLUTION THAT  
MAKES AUTOMATION EASIER,  
FASTER AND MORE RELIABLE

- + Easy to buy
- + Easy to install
- + Easy to maintain

# Not too confident about installing an automation system? Stressed about getting started?

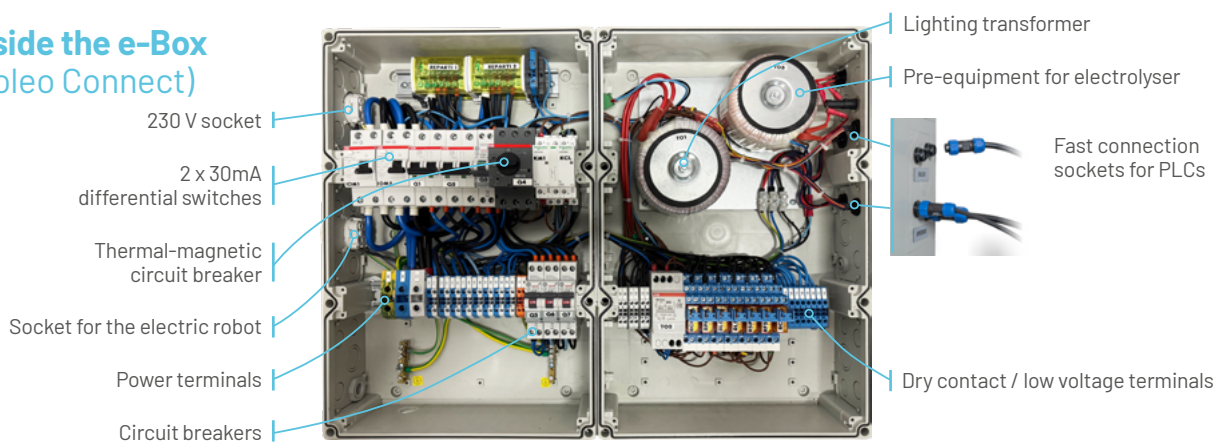

E-Box is THE solution that will restore your confidence in automation and will simplify installation! E-Box is THE all-in-one solution that includes automation and an electrical cabinet, already wired in accordance with current electrical standards. All that's left to do is to power the equipment from the electrical cabinet, like any standard installation. There's no room left for error.

Example installation with  
Soleo Connect e-Box

- |                         |                              |  |                        |
|-------------------------|------------------------------|--|------------------------|
| 1 Filtration pump       | 6 Lighting                   | 11 E-Box / Soleo Connect / Soleo wiring (included) | 14 Gateway (option)    |
| 2 Filter                | 7 Cover                      | 12 pH and ORP probes with probe holder (included)  | 15 Remote pool control |
| 3 Heat pump             | 8 E-Box (included)           | 13 Internet box                                    |                        |
| 4 IntelliChlor (option) | 9 Speedeo Connect (included) |  |                        |
| 5 pH pump (included)    | 10 Soleo (included)          |  |                        |

## Inside the e-Box (Soleo Connect)

## E-BOX SOLEO CONNECT

The intelligent, upgradeable pH regulator that controls all your equipment, even remotely.

An easy-to-install electrical cabinet with an intelligent pH controller that maintains the pool's pH at an ideal level and adapts the filtration cycles of the variable speed pump, connected to the Internet, all ready to control an IntelliChlor.

## E-BOX MAESTRO & LITE

The easy-to-install orchestra conductor for all swimming pool equipment

The Maestro e-Box system allows you to control all your pool equipment, either locally or remotely, and saves installation time thanks to its factory-tested, plug-and-play electrical cabinet, which integrates the probe holder and is ready to control an IntelliChlor for the full version.

The full version includes a 4X extension to control up to 9 pieces of equipment, a Speed FC to control a variable speed pump and pre-equipment to control the IntelliChlor.

The lite version without Speed FC, 4X extension or pre-equipment for IntelliChlor can control up to 5 pieces of equipment, including pH control, ORP control, filter pump, lighting and heating.

## INTELLIPOOL & LITE E-BOX

The IntelliPool e-Box system is designed to control all pieces of Pentair "Intelli" equipment, making full use of the communication between them. This system, which is easy to install thanks to the pre-wired electrical cabinet, will enable you to monitor and maintain your pool equipment remotely, upgrade it and offer your customers peace of mind.

The full version includes a 4X extension to control up to 9 pieces of equipment, plus pre-equipment for IntelliChlor.

The lite version without 4X extension or pre-equipment for IntelliChlor can control up to 5 pieces of equipment, including pH control, ORP control, filter pump, lighting and heating.

The ultimate solution that makes automation easier, faster and more reliable
