

QUAD D.E.[®]

D.E. FILTERS

THE CRYSTAL CLARITY OF D.E. WITH CARTRIDGE CONVENIENCE

Diatomaceous earth (D.E.) filters have always been recognized for providing the cleanest pool water. And, cartridge filters are popular for their convenience and easy-cleaning features. Now Pentair has found a way to bring you the best of both. The **Quad D.E.[®]** filter features four easily accessible and removable D.E. cartridges. When water passes through these cartridges, microscopic impurities like dirt, algae and some forms of bacteria are filtered out, giving you water that really sparkles. The four-cartridge design greatly increases the filter's internal surface area, meaning much greater cleaning capacity per cycle. And cleaning couldn't be easier. In fact, you have three options...backwash and recharge like a traditional D.E. filter, remove and rinse off the cartridges, or simply remove the lid, leave the cartridges in place, open the drain plug and rinse.

- Four large-capacity cartridges provide maximum filter surface area for greater dirt-trapping capacity and longer periods between cleaning.
- Unique internal flow path ensures optimum filtration and backwashing efficiency.
- Easily removable cartridge elements to simplify maintenance and save you time.
- Chemical resistant, fiberglass reinforced polypropylene tank for exceptional strength and long life.
- 2-year limited warranty.

QUAD D.E.®

D.E. FILTERS

Fiberglass reinforced polypropylene tank

Conveniently located drain

4 large capacity cartridges

ALSO AVAILABLE : D.E. SEPARATION TANK

The **SEP 100™** is compatible with the Quad D.E.® and eliminates disposal problems for D.E. material. The **SEP100™** removes efficiently the spent D.E. and debris from the backwash water and also allows a closed loop system which returns backwash water to the pool, reducing your waste water.

- Glass-reinforced thermoplastic tank for years of corrosion-free material
- Locking ring with spring loaded safety latches
- Easy access to debris bag
- Product holds approximately 10 kg of D.E.
