

Poseidon™
with ClearPro Technology®

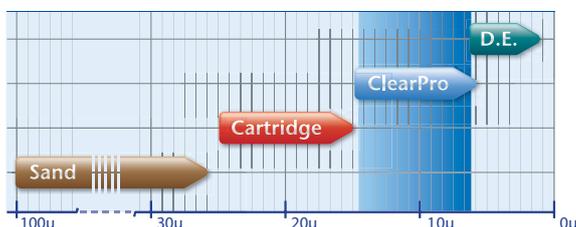

POSEIDON™ WITH CLEARPRO® TECHNOLOGY

THE BEST QUALITY FOR YOUR POOL

Sand filters are one of the most popular ways to filter water. They are simple, effective and require very little attention. Pool water is routed through a sand-filled pressure vessel. The sand traps large and small particles, but not all sand filters are created in the same way. The Pentair Poseidon sand filters are built with state-of-the-art technology, fully injected 100% food grade polypropylene guaranteeing maximum reliability and performance.

KEEPING IT SIMPLE WHILE MAKING IT SPARKLE

Besides its superior filtration performance, the **Poseidon®** sand filter delivers a level of dependability and ease of operation and maintenance for a track record that is unsurpassed.

NOW CAPABLE OF DELIVERING POOL WATER OF CRYSTAL QUALITY

Poseidon is now also available with **ClearPro Technology**: A patented technology to reach a very fine level of filtration, four times better than with a conventional sand filter. As a result, the water is of crystal quality. **ClearPro®** approaches D.E. filter quality with sand filter functionality. The secret is a component inside the filter - a porous tube through which water must pass before it re-enters the pool. It creates a final barrier to the small particles, including the finest dust particles, algae and pollens. At the same time, **Poseidon with ClearPro® Technology** remains a blissfully simple filter that requires less maintenance than either cartridge or diatomaceous filters. Just an occasional backwashing with the turn of a valve is all it takes to keep the **Poseidon** delivering the clearest water year after year.

POSEIDON™ WITH CLEARPRO® TECHNOLOGY

Transparent lid locked with tool-free clamp.

Constant thickness all over the filter body injected with first grade polypropylene.

Large base for high stability.

ADDITIONAL FEATURES INCLUDE:

- Thermo plastic injected filter with 100% food grade polypropylene
- Constant thickness all over the shell and perfect reproducibility
- A 360° diffuser to keep the sand bed flat for optimum filtration, has a "swingaway" design for instant access to sand
- Easy-to-use water drain for simplified service and winterising
- Tool-free maintenance with clamp locked by butterfly screws and nuts
- Transparent lid
- Six-way valve included
- Large base for high stability
- 10-year limited warranty
- **Available with ClearPro Technology**
