MAESTRO®  
Complete and smart automation system

# MAESTRO®

## AUTOMATION SYSTEM

TRADEGRADE

Control of the filtration cycles, water temperature and lights.

Disinfection via control of a salt chlorine generator or a dosing pump (accessories supplied separately).

pH control via a dosing pump (supplied separately).

Available in a semi-public pool version (hotel, leisure centre, etc.).

Amperometric regulation:

CL17®

System can be wirelessly connected to the home internet box, offering control at any moment, anywhere, or from a PC, smartphone or tablet.

You are informed of the conditions of your pool and equipment in real time.

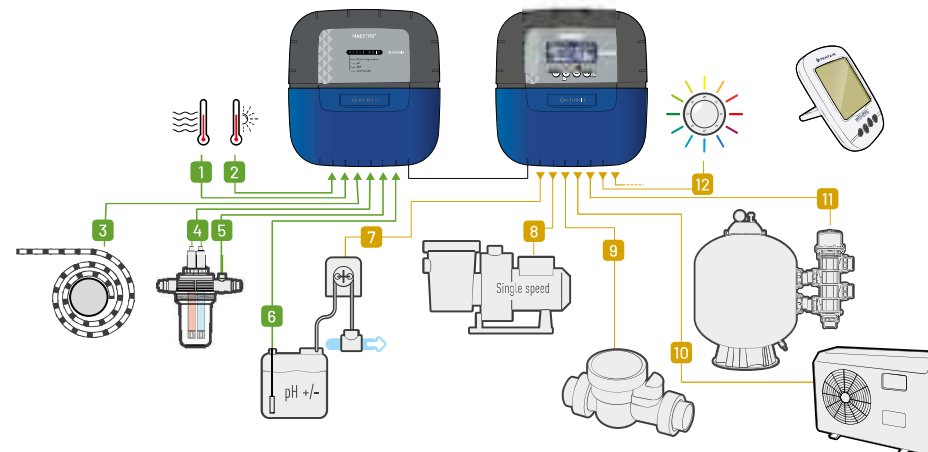

Professionals can control and anticipate maintenance operations remotely.

The system can be upgraded to control variable speed pumps.

1. Water temperature
2. External temperature
3. Information on the pool cover position
4. pH, RedOx and conductivity readings
5. Flow information
6. pH level information
